

Programme

Defining the Narratives for future model-based policy analyses of European Agriculture

An interactive stakeholder workshop

Date: Tuesday, 05 March 2018, 10:00 - 15:30

Location: Representation of Lower Saxony to the European Union, Rue Montoyer 61, B-1000 Brussels

The workshop presents narratives developed in SUPREMA regarding a baseline for agricultural modelling, a climate change policy narrative and an agricultural policy narratives. The narratives will be discussed, and will guide the project to identify relevant scenarios. The presentations will focus on (i) what is going to be delivered during SUPREMA (plans regarding model linkages and model improvements), (ii) what are the strengths and weaknesses in the modelling capacity, (iii) what remains promising on future modelling.
